RLMA Expands Beyond the Midwest

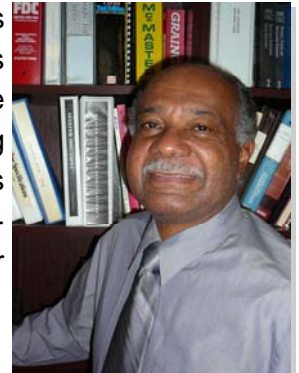

Our recent marketing efforts have paid off! This summer, we completed projects in Connecticut, Texas, Florida, Oregon, and Haiti.

Contact us for your next national project.

Geoffrey Layne to Retire in December

After 25 years with RLMA, Geoffrey Layne will be retiring at the end of this year. We pride ourselves for having clear, concise drawings. As our drafting manager, Geoffrey has been instrumental in developing and maintaining our high standards.

On the Boards

Infiniti Dealership - Clarendon Hills, IL

We have designed several automobile dealership over the years.

Our latest is a 20,200 sq ft Infiniti dealership with Allen + Pepa Architects. The building will feature a sales boutique, a service lounge, and a twenty bay service department.

Under Construction

Museum of Broadcast Communications - Chicago, IL

Renovating this 70,000 sq ft parking structure into a museum was a unique challenge for RLMA and our client, Eckenhoff Saunders Architects. With a LEED Gold rating goal, this facility will house exhibits, the Radio Hall of Fame, a multimedia café, administrative offices, and multi-purpose screening space.

Franciscan Point Phase II - Crown Point, IN

RLMA is putting the final touches on the drawings and specifications for this 26,900 sq ft health care facility. We worked with the architect, Design Organization, Inc. to develop a fast-track submittal for the foundations and structural steel. This will allow the contractor to complete the foundations before the ground freezes this winter.

Ottawa Intermediate School

Construction has begun for this 97,000 sq ft school designed with GreenAssociates, Inc. Due to poor soil conditions, our foundation design utilizes rammed aggregate piers to improve the soil strength and stiffness.
